PROJECTS

[TeamTracker](#)(ASP.NET, C#): Enterprise-level solution, built from the ground up, to streamline team project completion through an enhanced ticket service.

[Scope](#)(ASP.NET, C#): Personally-built blog to share my coding knowledge.

[AddressBook](#)(ASP.NET, C#): Create & group detailed contacts with ability to send emails by SMTP service.

EXPERIENCE

FULL STACK SOFTWARE ENGINEERING BOOTCAMP

Coder Foundry | Kernersville, NC | Mar 2022 - June 2022

- Utilize ASP.NET Core MVC to build 3 Full-Stack Apps in C#, JS and HTML.
- Generate code-first, relational databases using PostgreSQL.
- Update, access and seed data through dependency injections & LINQ.
- Deploy apps to Heroku & Netlify and establish remote access to the database through PgAdmin.
- Produce deliverables based on industry-level deadlines.
- Write multiple Front-End Apps using Vanilla Javascript.

RESIDENT PHYSICIAN

Spectrum Health | Saint Joseph, MI | June 2020 - Dec 2021

- Generate & validate appropriate disease management.
- Coordinate & improve operations of the healthcare team.
- Provide accurate coding for proper billing.
- Create concise presentations for medical education.

RESIDENT PHYSICIAN

Mercy Health | Youngstown, OH | June 2017 - Dec 2018

- Analyze, trend and forecast data to formulate an accurate diagnosis.
- Create simplified processes to enhance patient compliance.
- Report necessary data to leadership to optimize care strategy.
- Communicate & document individual assessment and plan.

RESEARCH ASSISTANT

Northwestern University | Chicago, IL | June 2012 - May 2013

Perform protocols to isolate and analyze all RNA, DNA and protein samples. Conduct electrocardiograms and induce atrial fibrillation within all canine cardiac models. Collect and analyze ECG signals to determine statistical significance utilizing Excel.
